Backpackers hiking a beaten path... a family camping near a hidden lake... a sportsman traversing field and forest... and, the woodland professional — each share a common love — venturing out in nature. For over 60 years, the Silva brand has been the one compass users know and trust. Whichever customer you serve, when they are looking for directions in nature, point them to Silva.
WILDERNESS BASE PLATE

A favorite for use with a USGS topographic map. The clear base plate allows for easy reading of map features and the straight edge can be used as a protractor. Classic design for map & compass navigation.
Feature rich, the Explorer Pro is the best choice for mapping and field use by serious navigators. The ergonomically shaped base plate fits nicely in the palm of the hand, with plenty of length for map work, while the larger capsule boasts beefy knurling for better grip and smooth dial rotation.

- High Contrast, High Visibility Bezel
- 2° Graduations
- Adjustable Declination Scale
- Luminous Points for Night Use
- Clinometer for Measuring Slope
- Built-in Magnifier
- 1/10 Mile Scales for USGS 1:24,000 and 1:62,500 Maps
- Inch Ruler
- Lanyard

An all-around great choice for getting off the beaten path, the Explorer has the scales, extended base plate, and dial graduations needed for accurate course mapping and navigation.

- 2° Graduations
- Fixed Declination Scale
- Built-in Magnifier
- 1/10 Mile Scales for USGS 1:24,000 and 1:62,500 Maps
- Inch Ruler
- Lanyard

Solid performance and excellent value describe why the Polaris is our most popular compass for general use, schools and Scout troops.

- 2° Graduations
- Fixed Declination Scale
- Inch & Millimeter Rulers
- USGS 1:24,000 Map Scale
- Ergonomic Base Plate

Easy as 1-2-3, the Starter is an ideal choice when learning map and compass skills, for use as a backup compass, or for small hands that require a smaller base plate. Scaled down in overall size, this model has the same accuracy as our top-of-the-line models.

- 2° Graduations
- Fixed Declination Scale
- Inch & Millimeter Rulers
- Ergonomic Base Plate
A favorite of the outdoorsman. The Vee-notch, in combination with an etched mirror or sighting slot, provide improved accuracy when sighting landmarks at distances. This is especially helpful when determining a location by triangulation. A trusted companion in the woods or on the water.
